

Switch to DuraBlue™ for all the right reasons.

- ✓ Boltless™ Mounting
- ✓ Self Aligning Edges
- ✓ Fast One-Step Removal
- ✓ Durable Lock Stands Up Longer
- ✓ Textured Surface For Longer Life
- ✓ Less Tension For Easy Installation
- ✓ Quick Removal For More Frequent Rotations

Putting the tool beneath the male and female lock sections allows for quick, easy one-step removal.

DuraBlue uses the existing slot.

DuraBlue anvil covers from Dicar are currently available in limited sizes for 66" rotary die cutters, such as Ward VSA, United Servo, Langston Titan and others. Inquire with Dicar sales representative or direct with Dicar for availability.
