

Geo. Martin Scrubber™ Wheels

The Dicar Geo. Martin Scrubber replacement wheels are made from the same durable urethane formula as our lead feed wheels and other urethane components. Precision sized and cast to meet or exceed the OEM specifications, the Martin Scrubber replacement wheels are designed for optimum wearability and sheet control without marking the sheet. Our replacement wheels also feature a wrap on design for simple and quick removal and installation.

FEATURES:

- Durable Dicar urethane formula
- Non-marking
- Exact fit for your Geo. Martin Scrubber
- Precision size and cast for optimal grip and sheet control
- Single source for all your urethane components
- Wrap on design for easy removal and installation
